PROFILE

Aspiring Full Stack Web Developer and UI/Ux Designer with some actual experience in building web apps and designing interfaces. MERN stack, REST APIs, Databases, authentication, responsive design and Figma are all part of my skillset. Looking for an internship to get involved in actual projects, to get some more experience and to learn from real developers and designers.

EDUCATION

Bachelors Of Computer Science (First Year)

Institution: London South Bank University, Ajman
Duration: 2026 - 2029

PROJECTS

1. CivilCard — E-commerce Web Application

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Developed an e-commerce application with product browsing, search, and shopping cart functionality.Implemented backend routes and database integration to manage application data. Worked on user authentication using JSON Web Tokens (JWT). Built functionality related to orders and the overall shopping experience.

2. MiniCRM — Client Lead Management System

Technologies: MongoDB, Express.js, React, Node.js, Axios, Vite.

Built a lead management application for organizing and tracking website contact-form enquiries. Developed an admin login system with protected routes and JWT authentication. Implemented lead creation, viewing, updating, deletion, search, and status filtering. Added lead statuses, notes, follow-up dates, and dashboard statistics.

3. MyPortfolio — Developer Portfolio Website

Technologies: React, JavaScript, CSS, Framer Motion, Spline.

Designed and developed a personal portfolio to present projects, technical skills, and professional experience. Created reusable React components and responsive page layouts. Worked on animations and interactive visual elements to improve the user experience. Organized project information and contact details for internship and professional opportunities.

4. MrBean — Café Website

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.

Developed a café website to present the menu and provide visitors with essential business information. Worked on responsive layouts and the presentation of café services. Integrated backend functionality for the application's data and features.

5. PetConnect — Pet Community Platform

Technologies: MongoDB, Express.js, React, Node.js.

Developed a social platform concept for pet owners to connect and share content. Worked on features for user profiles, posts, comments, likes, and following other users. Focused on building a structured interface for community interaction.

INTERNSHIP EXPERIENCE

Full-Stack Development Intern — Future Intern (Jul - Aug 2026 | Remote,UAE)

- Completed a Full-Stack development internship involving practical project work.
- Worked on projects including **MiniCRM**, **MyPortfolio**, and **MrBean Café**.
- Applied React and backend development concepts while building application features.
- Received an internship certificate and Letter of Recommendation.

UI/UX Design Intern — SyntecxHub (Jun- Jul 2026 | Remote,UAE)

- Completed UI/UX design tasks and developed interface design projects using Figma.
- Created **VisionaryLab**, a responsive landing page design.
- Designed **FoodieGo**, a mobile food-ordering interface, and **ProjectPulse**, a dashboard UI.
- Received an internship certificate.

MERN Stack Development Intern — Skillfied Mentor (Apr - Jun 2026 | Remote,UAE)

- Completed a MERN stack internship involving practical web development projects.
- Worked on two projects to apply front-end, back-end, and database concepts.
- Strengthened familiarity with the MongoDB, Express.js, React, and Node.js development workflow.
- Received an internship certificate.

Full-Stack Web Development Intern — CodeAlpha (Apr - May 2026 | Remote,UAE)

- Completed a Web development internship involving practical project work.

- Developed **CivilCard**, an e-commerce application, as part of the project experience.
- Applied front-end and back-end development concepts while working on application functionality.
- Received an internship certificate and Letter of Recommendation.

CERTIFICATIONS

- Full-Stack Web Development — Udemy (Apr - Oct 2025).
- Blockchain Fundamentals — Simplilearn (Dec - Feb 2026).
- UI/UX Design — Simplilearn (Mar 2026).
- Figma / UI Design — Simplilearn (Apr 2026).
- 1 Million prompter — Dubai Future Foundation (Aug 2026).
- Ethereum Development / Fundamentals — Udemy (Ongoing).

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, jQuery and DOM Manipulation.
- Backend: Node.js, Express.js, EJS, REST APIs, authentication, JWT.
- Databases: MongoDB, PostgreSQL.
- UI/UX and Design: Figma, Responsive Design, Wireframing, UI Design.
- Tools: Git, GitHub, Visual Studio Code.
- Programming: Basic Python, Learning Java.
